Periyar University

Bachelor of science in statistics - 7.0 cgpa

salem sowdeswari college

CERTIFICATIONS

Micro Degree in Data Science | Imagecon Academy (2023)

WORK EXPERIENCE

June 2024 - Present Junior Software Engineer | Techbeeshive Technology

- Developed and maintained dynamic web applications using PHP, Laravel, MySQL and RESTful APIs, reducing page load times by 20% and improving scalability.
- Worked with MySQL databases, optimizing queries and designing efficient schemas for data management.
- Developed and managed RESTful APIs using MVC architecture for the admin features of the influencer platform. Integrated AJAX to enable seamless data updates without page reloads, improving user experience and backend efficiency
- Integrated third-party APIs (such as Google Maps or Social Logins) and RESTful services to enhance platform functionality.
- Proficient in backend development with Node.js and API integrations, alongside strong experience in building admin panels and product management systems.

August 2023 to May 2024 Q-conneqt Bussiness solution

- worked as senior customer support and sales executive in TVS process.

SKILLS
